George Tiersma
FULL-STACK SOFTWARE ENGINEER

EXPERIENCE

Digital Fusion (Remote - Los Angeles, CA)

Software Engineer:
Intern *(March 2021 - Dec. 2021)*
Junior *(Dec. 2021 - Feb. 2023)*
Intermediate *(Feb. 2023 - present)*

✦ Works full-stack on their photo management software, **DF Studio**

✦ Noticed that the auditing system in the software was **recording data incorrectly**. Took initiative to check it entirely, fix all issues and add unit tests to prevent future problems.

✦ There were a few business-internal tools for the tech support team and other developers that were broken and using outdated frameworks. I re-built them with a much better design.

✦ Safely used complex SQL updates to help the tech support team fix corrupt data for a customer several times.

EDUCATION

Associate's of Applied Science w/ Certificate in Computer Programming

Chemeketa Community College (Salem, OR)

January 2015 - June 2019

Cumulative GPA: 3.54
